Unique Vendor Permutations\*

End of Support  
Operations Systems  
Vendor Certifications  
Browser Changes  
Hardware Upgrades  
New Technology  
Compliance  
Obsolescence

A common all-or-nothing vendor resolution method is to conduct an expensive and risky ERP upgrade which breaks customizations and workflows, getting in your way of moving forward.

## What you get.

- 15** Year Life Span  
We expand the lifespan of your business-critical applications and database platforms for a minimum of 15 years.
